

Diabetes Upskilling for Country WA Health Professionals February to June 2019 Calendar

Diabetes Telehealth helps build diabetes management capacity in country WA by providing regular updates for health professionals through the convenient channel of telehealth. Every fortnight a different diabetes-related topic is comprehensively covered, sometimes by staff of Diabetes WA, and sometimes by guest experts.

Join us for free professional development, in the comfort of your own workplace or home.*

These sessions will be recorded. Please register for the event via the Eventbrite link provided under the topic you are interested in - this is how you will receive the link to join the upskilling event and the link to watch the recorded session.

*Conditions can apply, like bandwidth limitations or restricted technical support outside office hours.
